

**COMMUNITY DEVELOPMENT AUTHORITY MEETING  
CITY OF WISCONSIN DELLS  
MAY 7, 2018**

Chairperson Borchert called the meeting to order at 5:00P.M. Notice of the meeting was provided to the *Dells Events*, WNNO Radio, and posted in accordance with State Statutes.

1. Present: Chairperson Ben Borchert, Ald. Mike Freel, Ald. Jesse DeFosse, Shaun Tofson, Lisa Delmore and Joan Ragan  
  
Others: City Clerk/Coordinator Nancy Holzem, City Planner Chris Tollaksen and Brian Holzem.
2. Motion by Ald. Freel seconded by Ragan to approve the October 23, 2017 meeting minutes. Motion carried unanimously.
3. Holzem Façade Improvement Grant Application.  
The committee reviewed a Façade Improvement Grant application submitted by Brian Holzem for 24-38 Broadway. The project is to remove the existing canopy, trim, deteriorating cedar shingles and install new shingles, gutters, signage and lighting. Estimated cost is \$45,719. Motion by Ald. Freel seconded by Tofson to approved the Façade Improvement Grant request submitted by Brian Holzem for 24-38 Broadway. Grant amount is capped at \$20,000. Motion carried unanimously.
4. There will be another grant application coming in within the next two weeks.
5. Next meeting was set for Tuesday, May 22, 2018 at 5:00pm
6. Motion by Ald. Freel seconded by Tofson to adjourn. Motion carried unanimously and the meeting adjourned at 5:15pm.

---

Nancy R. Holzem  
City Clerk/Coordinator

Staff Comment  
Façade Improvement  
DRC 05/16/18

Keg – 716 Oak.

The City has received an application from Keith Koehler to improve the façade of the old All Time Sports building he recently purchased at 714 Oak. The proposal includes removing the existing wood paneling covering the lower portion of the Oak St. façade, exposing the upper floor window on the Oak St. façade that is currently covered by a sign, installing one new large black clad window to replace the row of 3 windows on the Oak St. façade, installing new glass doors on the north face of the building, installing new awnings above the windows and doors on both sides of the building, repainting the entire building, and removing the existing roof top sign on the building.

These changes would move this business closer in line with the Design Standards, specifically: the Standards do not allow signs to be mounted in front of windows; the Standards prefer exposed brick to wood paneling, the painted brick, the Standards prefer horizontal expression lines to transition between the first floor and upper floors, the standards prefer windows and glass doors to solid walls, the standards prefer the colors on the secondary façade to match the primary façade, the roof top sign does is exactly the type of installation the new standards would like removed.

Some additional items for consideration include: (1) providing a discernible base, which could be in the form of continuing the lower horizontal expression line at grade level; (2) providing a positive visual termination at the top of the building, which could be in the form of a black cornice to tie into the black roofing that is required on the side of the building.

It is noted that the black roofing material comes down from the top of the side of the building to cover penetrations in the brick that were used as pockets to hold the roof rafters for the old building that was removed. If these pockets are not kept weather proofed the interior and exterior of the building could quickly degrade.

It is also noted that the roof top sign is tied into the existing rubber roof and the current plan is to re-roof the building in the fall. The roof top sign would be removed as part of the re-roofing project to prevent leaving holes in the roofing that could allow water to enter the building. If approved for a façade improvement grant, the applicant understands that the project would not be complete until the roof top sign is removed, and therefore will not be eligible for grant payments until the roof top sign is removed. Grant projects must be completed within 6 months, and the applicant stated he will meet that schedule.

The applicant has stated he intends to install a wall sign facing Oak St. near the corner of the building. It is an existing Keg sign that is no longer in use. The background of the sign had a blue hue to it. The blue horizontal expression lines on the building are meant to compliment that color.

Prepared by: Chris Tollaksen
