TO: Dave Holzem- Public Works Director
Wisconsin Dells Parking Board

FROM: Trinity Lutheran Church and
School 728 Church Street
Wisconsin Dells, WI 53965

SUBJECT: Request for "NO PARKING DURING SCHOOL DAYS" signs

DATE: July 14, 2014

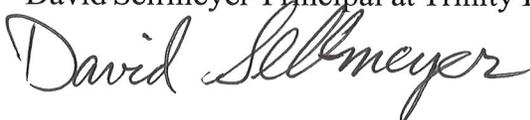

The Board of Christian Education and Board of Trustees are requesting on behalf of the members of Trinity for 2 signs to be erected in front of the property at the location of 728 Church Street between the alley on the east side of Church Street and the Church's driveway.

At the present time the parents and busses drop off the students in the alley between Colonial Motel and the church. Reasons for the request is listed below:

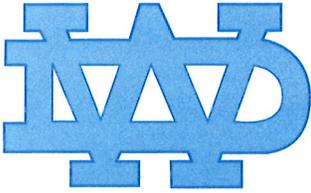

1. Reduce the amount on traffic in the alley.
2. Presently the students are dropped off by car and busses on the north side. For students that arrive by car-they will be dropped off on the south side of the church and picked up at the same location after school (church driveway).
3. School District of Wisconsin Dells busses need to make a wide turn in order to enter the alley at the present time.

We feel that the new drop off and pick up area on Church Street allows the busses to come in and pick up the students on Church Street in a timely manner and to be a safer area with less congestion for all.

Public Works Director

Dave Holzem

Dave,

On 07-10-2014 I met with Dave Sellmeyer and Gene Harder from the Trinity Church/School.

We discussed a new drop off and pick up location for the students attending. They proposed having us drop off and pick up on Church Street in front of the school.

I agreed with what they have planned. The new drop off and pick up area allows the busses to line up in front of the church close enough to the sidewalk that the students are out of the way of traffic from Church Street and the alley way. I feel this is a much safer way of picking up and dropping off students than what we have been doing in past years.

Thanks again for considering there proposal and the safety of the students.
